

Diagnosing and Directing Your Next Steps.

Business owners face many challenges in today's competitive environment, regardless of where a business is in its lifecycle.

The **business health check** will help to support you in getting the most out of your business. It will help you understand where your energy is best spent to achieve the best performance results or provide guidance on what the key priorities are for your business moving forward.

The **key outcome** is to enable business owners to feel empowered in their business decisions by having a clear direction forward to achieve their business needs.

Why complete a business health check?

Are your expectations aligned with your business' performance? Completing a business health check will help you to understand where the business is succeeding and equally where there might be areas of improvement to focus on.

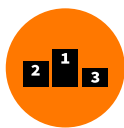

Analysis of key business criteria

Assess and evaluate the strengths and weaknesses of your business considering key criteria such as, Business Performance, Growth and Value, Team and Management, Risk and Competition.

Identify key opportunities and improvements

Are there key areas in your business you are concerned about or know need improvement? Do you have a clear understanding of the opportunities that exist?

Determine business priorities

Analyse and identify the top 3 priorities for your business moving forward.

Provide focus for business owners

We understand running a business is time-consuming and busy. This program will provide a clear focus for you to move forward and get on with what is required to succeed.
